

TIMING SCREWS

Position Containers FOR ANY APPLICATION

“When it comes to flexibility, reliability, and responsiveness, the Morrison team really sets themselves apart. Their partnership is critical to our ability to succeed in our fast-paced industry.”
- Erik Myjak, Voyant Beauty

SMOOTHER FEEDING
LOWER NOISE LEVELS
BACK PRESSURE CONTROL
LONGER LIFE
LABEL PRESERVATION

Customized to Meet Your Demands

Whether you're an OEM that needs to provide screws with your machinery or an end-user who needs to replace a screw in the field, we can help! Our engineers work with you to find the best solution to meet your needs and solve challenges. With state-of-the-art production techniques, we maintain tolerances to minimize noise and reduce costly downtime.

OEM Screws

When OEMs need screws for their equipment, we deliver. Our partnerships protect your intellectual property and help with container handling.

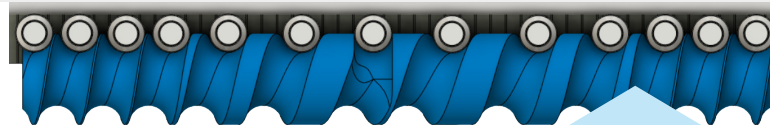

New Containers

If you're running a new container size, we can help! New containers often need new screws. We can help protect your container handling.

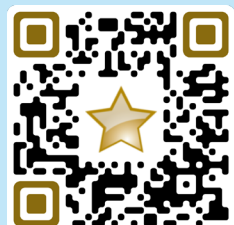

Replacement Screws

Sometimes, screws wear out or just don't function as needed. We can replace and redesign the screw to fit your current setup all the way down to the steelwork.

MATERIALS And Specifications

The following materials are standard screw materials we use in our timing screw manufacturing process. Based on the environment of your plant, we will recommend specific materials to perform better depending on your operation.

1

UHMW

Washdown capable, strong resistance against caustics, strong resistance from wear.

2

Delrin / Acetal

Hard material that does not shrink, swell, or twist with humidity or temperature changes.

3

Nylon

Hard material used in dry environments or with glass products.

4

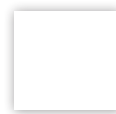

HDPE, Stainless Steel, and Aluminum

These materials are also available upon request and to perform the application you need.

UHMW COLOR OPTIONS For Quick, Easy Changeover

We can produce your timing screw in any color that's made! Below is the list of our stock colors, but custom colors are available upon request.
